Gentlemen, - In reply to Mr.
St. P. Gould's inquiry of March
4, 1938 will say that I issue
no printed catalog. I collect
local wild plant products;
specimens, seeds, etc. for seeds-
men and others. Seeds are as
represented, but never guaran-
teed as to viability or in any
other way: old seeds may be
good for herbarium or experi-
mental purposes only. At
present I have on hand and
for sale as long as they last
(prices transportation paid,
quantities approximate, the
year indicates the year of cover)

From J. B. E. Vernecke, botanical collector, Royal,
Nebr.
